2020 Aquis Farm Seymour – Covid 19 Protocols

We ask that all clients/visitors adhere to the directives posted on Aquis farm signs. All clients/visitors are required to wear a face covering whenever they are outside their vehicle whilst on Aquis farm.

Mare drop off and pick up for cover:

- Please sanitise your hands before unloading the mare. Sanitiser spray will also be available for gate latches. Please utilise these before entering and after exiting the yard.
- Place mare/s into small yards by the loading ramps
- Remove all head collars and leads and return to your vehicle. A member of staff will notify you when the mare is ready to depart
- No clients/visitors are permitted within the prep shed or covering barn.
- Load the mare with your own head collar and lead. Please alert a member of staff if you require assistance with loading.

Mare drop off and pick up prior to covering time:

We understand not all mares will be able to arrive and depart at exactly their covering times. In this case we ask for the below procedures to be followed:

- Please enter Aquis farm by the second entrance (closest to Godolphin)
- Please place mare/s into yards with WALK ON MARE signage ONLY and remove all head collars and leads.
- Mare/s will be placed back in these yards for departure.
- Please sanitise hands and gate latches with sanitiser provided on arrival and departure.

We ask at this time that no coffee and tea facilities will be available, however if other facilities are necessary i.e. bathroom or water please follow social distancing measures, always wash, and sanitise hands and return to your vehicle as soon as possible.
